

Perspectives on Social Computing Applications, Challenges, and Approaches

RESC Workshop

Aug 29, 2011

Trento

Panelists

- Annie Anton
 - Professor, NC State University
- Fausto Giunchiglia
 - Professor, University of Trento
- John Mylopoulos
 - Professor, University of Trento
- Eric Yu
 - Professor, University of Toronto

Four Questions in Eight Minutes

- How do you understand social computing (SC): what's new about it?
- What is special about requirements engineering (RE) for SC?
- What are the three most relevant research challenges there?
- From where do we get the inspiration and insights for addressing them?
