Registration – Welcome
[9:00] Opening session

SESSION A VISION SYSTEMS AND SCENE UNDERSTANDING
[9:40] Facet based image processing and representation, A. V. Michtchenko
[10:30] Coffee break
[10:45] A real production vision system for aggregates and froth quality control, W. X. Wang, O. Stephansson
[11:35] Object detection and feature extraction for the recognition of real world images, Haomin Jin
[12:00] A generic environment for the evaluation of vision systems, J. Blanc-Talon, V. Ropert

SESSION B1 PATTERN RECOGNITION
[14:00] Robust human detection and segmentation using prototype based deformable templates, L. Li, M. K. H. Leung
[14:25] 3D shape modeling by a multilayer network, I. Kumazawa, M. Ohno
[15:15] Pause

SESSION C VIDEO PROCESSING, SURVEILLANCE AND IMAGE SECURITY
[15:30] Image scrambling using an optimal basis with isotropic energy concentration, D. V. D. Ville, W. Philips, I. Lemahieu
[16:20] Reduction of the number of domain blocks enrolled in a domain pool for fractal image coding, H. Kuroda, K. Imamura, Y. Tanak, M. Fujiimura, Y. Wang
[17:10] Finding initial estimates of face location in color images, T. S. Caetano, D. A. C. Barone

SESSION D IMAGE PROCESSING
[14:00] Image magnification with multiresolution analysis, F. Nicolier, F. Truchetet
[15:15] Pause

STEERING COMMITTEE
Jacques Blanc-Talon
CTA/GIP
16 bis, Av. Priere côte d'or,
94114 Arcueil
France
Jacques.Blanc-Talon@etca.fr

ORGANIZING COMMITTEE
ACIVS’2001 will be hosted by the 13th Int. Conf. on Systems Research, Informatics and Cybernetics, organized by the International Institute for Advanced Studies (www.iias.edu).
