One-pager: MRD (Miu *et al.*, 2005)   **Due: Start of lecture, 30th January 2012**

Instructions: ***in your own words,*** *answer the following questions as **succinctly** as possible (in 200–500 words total, but shorter answers within this range are encouraged). Quoting figures or text from the assigned reading or from any other source is specifically prohibited.*

The MRD design includes an acknowledgement protocol between the MRDS and MRDC that operates in addition to and on top of 802.11's link-layer acknowledgements. First, very briefly explain how this acknowledgement protocol works. Next, provide two examples of when it is needed, and what happens in each example.
